

Test Document: APA Citation Scenarios

1. Introduction

This document tests the citation integrity checker with various scenarios. Each section demonstrates a specific citation integrity scenario.

2. Citation Scenarios

APA-01: MATCHED

Classic paper - in-text (Vaswani et al., 2017) matches reference

In-text: Deep learning has achieved remarkable success (Vaswani et al., 2017).

Reference: [1] A. Vaswani, N. Shazeer, N. Parmar, et al. "Attention Is All You Need." Advances in Neural Information Processing Systems, 2017.

APA-02: MATCHED

BERT paper - author-year format matches reference

In-text: BERT revolutionized NLP tasks (Devlin et al., 2019).

Reference: [2] J. Devlin, M.-W. Chang, K. Lee, and K. Toutanova. "BERT: Pre-training of Deep Bidirectional Transformers." Association for Computational Linguistics, 2019.

APA-03: MATCHED

Subword NMT paper - MATCHED via author-year

In-text: Neural machine translation improved significantly (Sennrich et al., 2016).

Reference: [3] R. Sennrich, B. Haddow, and A. Birch. "Neural Machine Translation of Rare Words with Subword Units." Association for Computational Linguistics, 2016.

APA-04: MISSING_REFERENCE

MISSING_REFERENCE: In-text exists but no matching reference entry

In-text: This breakthrough changed the field (MysteryPaper, 2020).

Reference: <>

APA-05: UNCITED_REFERENCE

Note: Reference exists but is NOT cited in body

In-text: Traditional methods remain useful in some contexts (Smith, 2015).

Reference: [4] J. Smith. "Introduction to Classical Methods." Journal of Classical Studies, 2015.

APA-06: IN_TEXT_MISMATCH

IN_TEXT_MISMATCH: Author/year match but title differs from [5]

In-text: Transformers use self-attention (Vaswani et al., 2017).

Reference: [5] A. Vaswani, N. Shazeer, N. Parmar, et al. "Graph Neural Networks: A Survey." Different venue, 2017.

APA-07: DUPLICATE_REFERENCE

DUPLICATE_REFERENCE: Same paper appears twice in references

In-text: Attention mechanisms are powerful (Vaswani et al., 2017). See also (Vaswani et al., 2017b).

Reference: [6-7] A. Vaswani, et al. "Attention Is All You Need." NeurIPS, 2017. (DUPLICATE ENTRIES)

APA-08: MATCHED

Word2Vec paper - MATCHED via DOI/author-year

In-text: Word embeddings capture semantic relationships (Mikolov et al., 2013).

Reference: [8] T. Mikolov, K. Chen, G. Corrado, and J. Dean. "Efficient Estimation of Word Representations." arXiv, 2013.

APA-09: AMBIGUOUS_MAPPING

AMBIGUOUS_MAPPING: Multiple candidates match (Pan et al., 2020)

In-text: Transfer learning proved effective (Pan et al., 2020).

Reference: [9] S. J. Pan and Q. Yang. "A Survey on Transfer Learning." IEEE Transactions, 2010.
[10] F. Pan et al. "Transfer Learning in 2020." New Journal, 2020.

APA-10: MATCHED

GPT-3 paper - MATCHED via DOI/author-year

In-text: Large language models show emergent abilities (Brown et al., 2020).

Reference: [11] T. B. Brown et al. "Language Models are Few-Shot Learners." NeurIPS, 2020.

3. References

Only properly formatted references below:
